Hi Walter -

We established our own, stand-alone website in 2007 and in 2014 we transitioned to
NonProfitDynamics (Joe Leonard, owner and developer) for hosting our site at
www.ppcmoaa.org. Joe has done a very good job for us as you can see from our site. His
cost is also very reasonable and he is very attentive to suggestions, improvements or
corrections.
He is Cc'd on this message.

    I'm the webmaster for moaa-centralohio.org and interested in your experience with
    MOAA Website solutions. I'm looking for ways to improve my site while lessening the
    burden…in particular membership only areas and limiting access to areas by certain
    board members.  I'd appreciate any comments about Website Solutions as I explore
    different vendors.  Thanks
